

ICL-IPL Kyoto Conference 2013

-Strengthening International Network and Partnership
in Science and Technology to Create a Safer Geo-Environment-

ICL and IPL will organize a conference to strengthen international networks and partnership in science and technology and their applications to policy and practice for a safer geo-environment. The conference will provide a forum to examine how scientific knowledge and technical know-how can be applied to policy-making and practice for disaster risk reduction in earthquake and heavy rainfall landslide-prone countries/regions. International collaborative initiatives and links will be encouraged. The findings will identify the challenges and cooperative frameworks which should be addressed during the World Landslide Forum 3 to be held in Beijing, June 2014 and at the World Conference on Disaster Reduction (WCDR) to take place in Japan, January 2015 in pursuance to the 2012 ICL Strategic Plan 2012-2021.

Date: 19-22 November 2013

Venue: Shiran-Kaikan, Kyoto University, Kyoto Japan

Organizers:

International Consortium on Landslides (ICL) and International Programme on Landslides (IPL)

Sponsor: Japan Science and Technology Agency (JST)

Date	Time	Programme
18 Nov. (Monday)	14:00-17:00	Landslide teaching tools and preparatory group meetings for those who will arrive in the morning.
19 Nov. (Tue)	9:00 - 12:00	IPL Symposium
19 Nov. (Tue)	13:30-17:30	IPL Symposium including new IPL project proposals
20 Nov.(Wed)	9:00 - 12:30	Reports of Regional and thematic networks, Proposals of World Centres on Excellence (WCoE) on Landslide Risk Reduction
20 Nov.(Wed)	14:00-17:30	Group discussions of networks and committees, and projects (Rooms will be prepared)
21 Nov. (Thurs)	9:00 - 12:00	Organization of the World Landslide Forum 3 in Beijing
